Subject: follow-up question on Birch Lake

Catherin, Bill,

Thank you for the discussion this morning on Birch Lake. There is one follow-up question which you might have covered but I don't have in my notes. I believe you mentioned that 1854 treaty group sent you the map with the table overlaid on the map mentioned in their comments that if you would like more information they could supply it.

My question is are you planning on requesting the additional information? This would help strengthen your argument that you looked at all the data supplied and that the State is taking this seriously. You still will need the QA information and methods used to collect the data.
